## POLL HEREFORDS

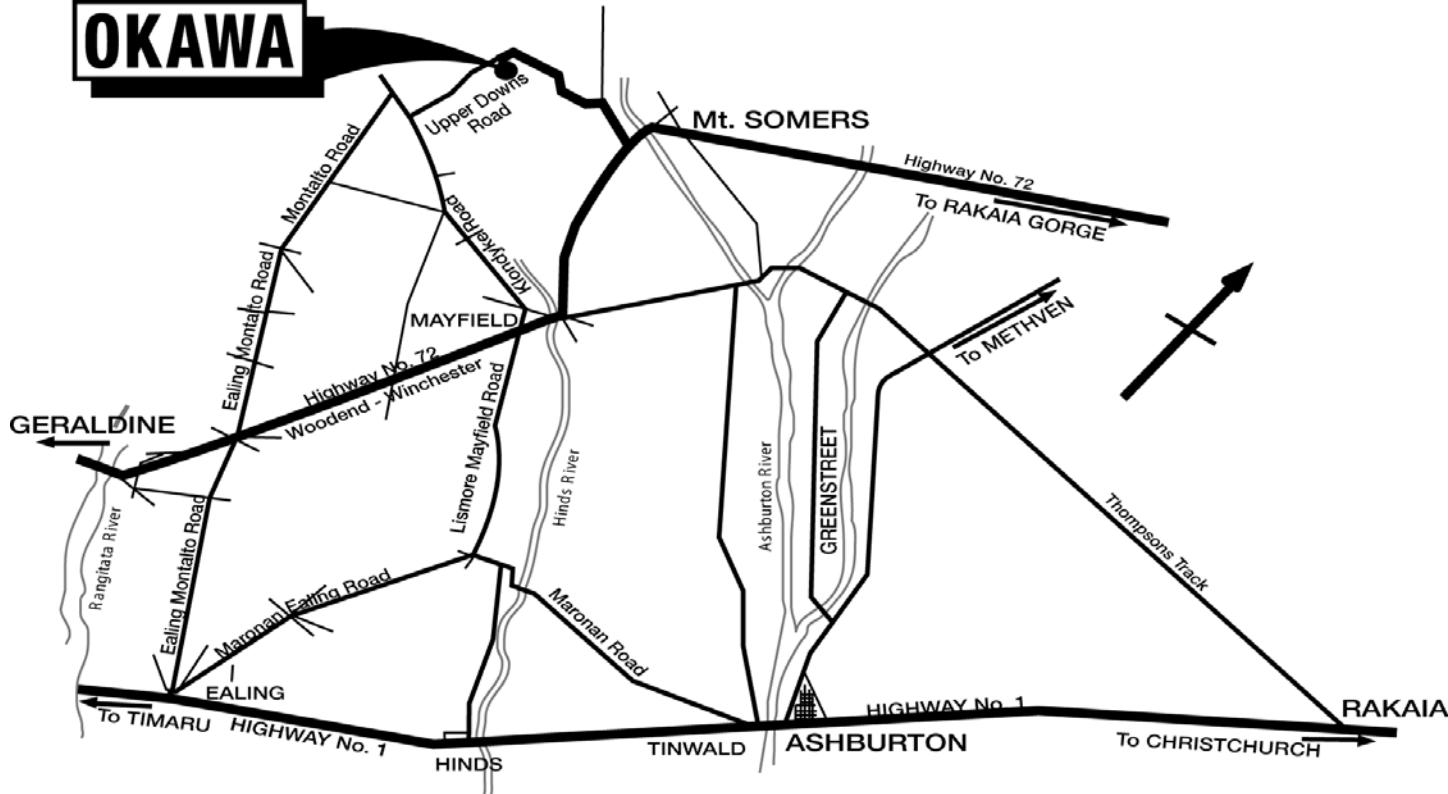

FOCUSED ON PERFORMANCE

53rd ANNUAL BULL SALE

**WEDNESDAY 8TH JUNE 2022, 2.30PM**

60 Rising 2 Year Bulls

# OKAWA

# 53rd ANNUAL BULL SALE

## WEDNESDAY 8TH JUNE 2022, 2.30PM

### 60 Rising 2 Year Bulls

To be held under cover on the property, 518 Upper Downs Rd, Mt. Somers, Ashburton

A/c: Nick & Penny France, Okawa Farms Ltd, No. 8 R.D., Ashburton  
Phone (03) 303 9749

#### SELLING COMPANY:

PGG Wrightson

**ALL INTENDING PURCHASERS MUST REGISTER AT THE SALES OFFICE PRIOR TO THE SALE.**  
PGW will pay a purchasing rebate of 6% of the purchase price excluding GST, plus GST, to livestock companies & recognised independent livestock agents with a PGW account who have introduced buyers to PGW before the sale and/or accompanied buyers to the sale.

**THE TB STATUS OF THE OKAWA HERD IS C10  
SALE BULLS BLOOD TESTED FREE OF BVD AND VACCINATED TWICE AGAINST BVD**

*Light Refreshments will be provided at the sale*

#### PRECEDED BY:

Orari Gorge Bull Sale, Orari Gorge, 11.00a.m, Wednesday, 1st June 2022

# FOREWORD

Okawa consists of 950 hectares situated in the foothills district of Mt. Somers, Mid-Canterbury. Rainfall averages 1,000 mm/year, and being 500 metres above sea level several falls of snow occur each winter.

We winter approximately 10,000 stock units, including 320 registered Poll Hereford cows.

The Okawa Stud was founded by Mr. D.W. (Bill) Morrow in 1954. David and Rosemary Morrow took ownership in 1979 until 2014 when Nick and Penny France purchased the Stud. The aim of our breeding programme at Okawa is to breed well fleshed, active commercial bulls with strong constitution and improving performance.

All heifers are mated for 2 cycles to calve as 2 year olds, the cows mated for 3 cycles, and any empty at pregnancy testing in March are culled.

We strongly believe that cow performance is very important and continually cull on Breedplan figures, constitution, easy care characteristics and eye appeal.

The cattle are run under commercial conditions being fed grass, and at times of snow and drought ryegrass straw. Cows are wintered cleaning up native hill blocks in large mobs. Calves are wintered on kale and balage. Our winter bull sale calves are wintered in one mob of up to 100 head until 400 day weights are taken in October, when they are cut back to approximately 80 until 600 day weights are taken at the end of February. Sale bulls are then selected and run in two mobs until close to sale day. All Sale bulls are then semen tested, BVD tested and have passed a veterinary soundness check. You are invited to inspect the herd at any time by making arrangements with Nick France 0275678019 or your local agent.

*Nick & Penny France*

# **bidr®** is here.

## Trade Livestock Like Never Before

Real time auctions, bid on livestock from anywhere.

All livestock listed by livestock agents and assessed by accredited assessors.

Nationwide Reach. Bringing more buyers and sellers together, Virtually.

Buy livestock straight from farm resulting in less stress on animals and positive environmental benefits.

Full livestock assessment information for buyers and nationwide reach for sellers.

# Buy and Sell livestock on bidr® in 3 easy steps:

1

Sign up at  
[www.bidr.co.nz](http://www.bidr.co.nz)  
and add your  
agency account  
under account  
details

2

Browse auctions to  
find livestock you  
are interested in  
buying

3

Login and register  
for the real time  
online auction to  
bid for the livestock  
you wish to  
purchase

# bidr®

Contact your bidr® Representative  
to sign up at [bidr.co.nz](http://bidr.co.nz)

# BIDR

This sale will be hosted by bidr® ([www.bidr.co.nz](http://www.bidr.co.nz)) as a HYBRID auction, with online bidding and a live-stream available on sale day, as well as the normal on-farm format. All intending ONLINE purchasers must register on bidr® in advance of the sale date, by visiting the website and using the “sign up” button, adding their contact information and nominating the agency they would like to purchase through and account held with that agency. Alternatively, purchasers can organise an agent from one of the agencies listed on bidr® to buy on their behalf. The bidr® team is always available to help purchasers get signed up and registered, and the HelpDesk is proudly managed in-house from the Waikato. Please call 0800 TO BIDR (0800 86 2437), or email [enquiries@bidr.co.nz](mailto:enquiries@bidr.co.nz) for assistance at any point. Alternatively, contact your local bidr® representative:

**Upper NI:** Jess Davies (027 367 2837)

**Lower NI:** Aimee Flynn (027 282 1710)

**National Sales and Operations Manager:**

**Upper SI:** Bianca Perkins (027 732 0006)

**Lower SI:** Sam Murphy (027 243 2736)

Caitlin Barnett (027 405 6156)

## CONDITIONS OF SALE

1. All lots will be sold under the usual Conditions of the Mid Canterbury Stock and Station Agents' Association.
2. The entry of every bull constitutes a guarantee by the Vendor that the purchase price (without interest, expenses, costs and damages) shall be refunded if a bull proves totally infertile or incapable of service. If any bull offered does not possess a reasonable fertility although not totally infertile any dispute shall be settled by an arbitrator appointed by the Auctioneers. Any complaint must be lodged with the Auctioneers within six months of date of sale. The cost to be borne by the purchaser. A Veterinary Certificate shall be produced by the purchaser when required. The Auctioneers will assist in settlement of any dispute, but assume no responsibility for any breach of warranty.
3. Each lot becomes the property of the purchaser at the fall of the hammer.
4. Although every care has been taken in compiling this Catalogue to ensure accuracy, no responsibility is accepted for any errors that may be included therein.
5. Insurance. The Auctioneers can arrange Insurance on any stock. An Insurance representative will be present.
6. Leave full and explicit instructions in regard to transport.
7. All intending purchasers must register at the PGG Wrightson Ltd Livestock (PGW) sales office prior to the sale. The New Zealand Stock & Station Agent's Association Conditions of Sale apply. These terms can be inspected at the registration desk and on the wall in the auction room. PGW's Monthly Account Terms of Trade also apply to the extent deemed relevant by PGW. The current versions of PGW's Monthly Account Terms of Trade are also available online at: [www.pggwrightson.co.nz/Our-Company/Terms-and-Conditions](http://www.pggwrightson.co.nz/Our-Company/Terms-and-Conditions) or in hardcopy on request. On behalf of the vendor, PGW will pay a purchasing rebate of 6% of the purchase price excluding GST, plus GST, to livestock companies and recognised independent livestock agents with a PGW Monthly Account who have introduced buyers to PGW before the sale and/or accompanied buyers to the sale.
8. Fifty percent of all international semen rights will be retained by the vendor in all bulls catalogued unless prior arrangement has been made with vendor.

# UNDERSTANDING ESTIMATED BREEDING VALUES (EBV'S)

**ESTIMATED BREEDING VALUES (EBVs):** The EBV is the best estimate of an animal's genetic merit for that trait.

## CALVING EASE:

DIR- Indicates how easily this bull's progeny are likely to be born

DTRS- Indicates how easily this bull's daughters are likely to calve. More positive EBVs indicate easier calving.

## BIRTH:

BWT- Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

## GROWTH:

Milk - 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200 day weight of their calves.

200 - 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400 - 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600 - 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

MV - Maternal Value EBV is an index of the EBVs for the 200-Day Growth and 200-Day Milk, and is calculated by the following formulae: For sires:  $MV = \frac{1}{2} \text{ Milk EBV} + \frac{1}{4} \text{ 200-Day Growth EBV}$ . For dams:  $MV = \text{Milk EBV} + \frac{1}{2} \text{ 200-Day Growth EBV}$ .

MCW - Mature Cow Weight is an estimate of the genetic difference in cow weight between animals at five years of age. MCW EBVs for sires are based on weights recorded on their daughters. Smaller or more moderate MCW EBVs are generally more favourable as they indicate more efficient cows requiring less feed for maintenance.

## FERTILITY:

SS- Scrotal Size (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. SS is also positively associated with female fertility.

## CARCASE:

CWT - Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days. More positive EBVs indicate heavier carcases at 650 days of age.

EMA - Eye Muscle Area EBV (CM<sup>2</sup>) Estimates genetic differences in eye muscle area at the 12/13th rib site of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals.

RIB - Rib Fat EBV (mm) estimates the genetic differences in fat depth at the 12/13th rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RUMP - Rump Fat EBV (mm) estimates the genetic differences in fat depth at the P8 site on a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity. Two fat EBVs are listed as there is variation between animals regarding fat depth at the two sites.

INTRAMUSCULAR FAT - Intramuscular Fat (IMF) EBVs are estimates of generic difference between animals in intramuscular fat (marbling) at the 12/13 rib site in a 300kg carcase. Larger, more positive, IMF EBVs are generally more favourable.

**ACCURACY:** An accuracy is presented with each EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy, the less the animals EBV is likely to change as more information is analysed for that animal or its relatives. Accuracy below 75% should be considered low.

**INDEXES:** The Indexes are derived by acknowledging the relative importance (weightings) of EBV's across the 16 EBV's produced by A.B.R.I. They are derived in relation to Market returns, less the cost of production, with all indexes expressed in dollar terms. The three indexes relevant to this sale are:

**HEREFORD PRIME INDEX** - Estimates the genetic differences between animals in net profitability per mixed age cow joined for a typical self-replacing commercial herd where Hereford bulls are joined to either Hereford or other British breed females and targeting the production of grass finished steers for the Hereford Prime program. Selected heifers are retained for breeding and so maternal traits are of importance. Steers target 550 kg live weight (300 kg carcase weight & 7 mm P8 fat) at 20 months of age, and heifers 475 kg (260 kg carcase weight & 8 mm fat depth), at 22 months of age.

**BEEF HEIFER INDEX** - Estimates the genetic differences between animals in net profitability per yearling heifer joined for a typical self-replacing commercial herd where Hereford bulls are joined to either Hereford or other British breed heifers. Selected heifers are retained for breeding and so maternal traits are of importance. Steers target 510 kg live weight (280 kg HSCW and 7 mm P8 fat depth) and heifers 450 kg (250 kg HSCW and 8 mm P8 fat depth) at 20 months of age.

**DAIRY BEEF INDEX** - Estimates the genetic differences between animals in net profitability per mixed age dairy cow joined with all progeny destined for slaughter. Steers and heifer progeny target 550 kg live weight (300 kg carcase weight and 6 mm fat depth) at 24 months of age and at 475 kg live weight (260 kg carcase weight and 7 mm fat depth) at 22 months, respectively.

Use this list to determine how an animal's EBV's rank compared to all calves born in 2018 Australasian Hereford Group Breedplan. For example a bull with an E.B.V. of +35 for 200 Day Growth will be in the top 40% for that trait in 2020 Group Breedplan.

**SHADED BOXES** indicate EBV's in the top 10% for 2020 Australasian Group Breedplan.

**BM, SBM OR GBM** indicate Benchmark, Silver Benchmark or Gold Benchmark status as awarded by NZ Hereford Association for Maternal Excellence.

AonAgri brokers have worked with farmers at bull sales across New Zealand, for a number of years. Our dedicated local teams understand the value and importance of making sure your bull is properly covered - right from the sale.

Aon offers our clients full insurance packages, based on an agreed value, up front. Having negotiated the best policies and terms, our easy claims process and local service also give bull farmers security, protection and peace of mind when it comes to insuring one of their biggest assets.

There's a reason that Aon are New Zealand's leading Agricultural Insurance Broker. Talk to one of our Ashburton team today for more information.

# Breeding Better Business

A man in a dark jacket and light pants walks away from the camera. Two other men, one in a dark jacket and beanie, and another in a dark hoodie, are herding a group of cattle along a dirt path. The cattle are dark brown with some white patches. The background is a dense, green, overgrown hillside.

As part of New Zealand's largest Livestock network, our team of Genetics Specialists have more contacts, more reach and more market influence.

We provide more practical advice and more technical expertise. And, with the country's largest network and most popular sales events, we bring together more buyers and more sellers, delivering more value for all.

*If you're looking for a planned approach to success, give us a call today.*
